

Fantasy Crux Lite

Rules Summary

Konstantinos Karasavvas

A concise summary of the Fantasy Crux rules, covering character creation, skills, combat, and magic.

Introduction

Fantasy Crux Lite is a D100-based fantasy RPG. Characters are defined by Characteristics, Attributes, and Skills. This summary covers the core rules for a mundane medieval fantasy game, plus Battle and Folk Magic disciplines. For complete rules consult Fantasy Crux.

Characters

Characteristics

The seven core characteristics are:

- **STR** (Strength): Brute force.
- **CON** (Constitution): Health and stamina.
- **DEX** (Dexterity): Agility and reaction speed.
- **SIZ** (Size): Mass and height.
- **INT** (Intelligence): Analysis and memory.
- **POW** (Power): Life force and luck.
- **CHA** (Charisma): Leadership and charm.

Generation: Start with 8 in each. Distribute 30 points. Max 18. Alternatively, roll 4D6 drop lowest (3D6+6 for INT/SIZ). Max possible is 21.

Attributes

Derived from characteristics:

- **Damage Modifier (DM):** Bonus melee damage (see table).
- **Hit Points (HP):** $(SIZ + CON) / 2$ (round up).
- **Major Wound:** $HP / 2$ (round up).
- **Power Points (PP):** Equal to POW. Regenerate with rest.
- **Movement:** 15m for humans.
- **Combat Order:** $(DEX + INT) / 2 - \text{Armour ENC}$.

STR + SIZ	DM
1-10	-1d6
11-15	-1d4
16-25	+0
26-30	+1d4
31-45	+1d6
46-60	+2d6

Luck / Hero Points

Start with 2 Hero Points. Spend to:

- Re-roll any failed die.
- Downgrade Major Wound to normal.
- Survive death (stabilize at 0 HP).
- Edit the plot (GM discretion).

Skill Points

Calculate each skill's base value from its formula. Then distribute bonus points per group (max +30 to any one skill):

Skill Group	Points to Distribute
Resistances	50
Combat	50
Knowledge	50
Practical	75

Customization:

- Trade up to 20 Combat points for Knowledge at 1:2 ratio (10 Combat → 20 Knowledge).
- Trade up to 10 points from Resistances, Combat, or Practical for Improvement Points at 5:1 ratio (max 6 IP this way). These IP can only be used for Disciplines or Characteristics.

Special Training

Each character starts with **10 Improvement Points** to further improve skills or acquire Disciplines.

Starting Equipment

Starting cash: 4D6 × 10 SP. Plus one equipment package:

- Leather armour, ranged weapon, close combat 2H weapon, dagger.
- Leather armour, shield, ranged weapon, close combat 1H weapon, dagger.

All characters also start with: backpack, rope, two weeks provisions, flint & tinder, waterskin.

Improvement Points

Characters earn Improvement Points (IP) through play, awarded by the GM.

- **Improve Skills:** 1 IP → increase 1-2 skills by 5% total (skills below 51%), by 3% (51-99%), or by 1% (100%+). Max +5% per skill per advance.
- **Improve Characteristics:** 5 IP → +1 to one Characteristic (not SIZ). Max 21 for humans.
- **Acquire Disciplines:** Spend IP per the Discipline's section.
- **Practice / Research:** 1 IP per 3 months of downtime.

Skills

Skills are percentage-based. Roll **D100** equal to or under Skill to succeed.

Bonus & Penalty Dice

Special circumstances may provide Bonus (B) or Penalty (P) dice.

- **+1B (Bonus)**: Roll an extra D10 for the tens digit; keep the **lowest** (best) result.
- **-1P (Penalty)**: Roll an extra D10 for the tens digit; keep the **highest** (worst) result.
- **Stacking**: +2B = roll 3D10 for tens, keep lowest. -2P = roll 3D10 for tens, keep highest.
- **Cancellation**: If a roll has both Bonus and Penalty dice, they cancel out 1-for-1 before rolling.
- **Critical**: Roll $\leq$ tens value of Skill. Best possible outcome.
- **Fumble**: Roll 99-00. Worst possible outcome.
- **Assistance**: +1B if helper has relevant skill.

Opposed Tests

Both characters roll. Compare results:

- **One succeeds, one fails**: The successful character wins.
- **Both succeed**: Highest roll wins. A Critical beats an ordinary success.
- **Both fail**: Lowest roll wins. Ties go to the Player character.

Skill List

(Base formulas included for reference)

Resistances

- **Dodge** (DEX+10): Avoid physical threats.
- **Persistence** (POW+10): Resist magic and influence.
- **Resilience** (CON+POW): Resist poison, disease, pain.

Combat

- **Close Combat** (DEX+STR): Melee weapons and parrying.
- **Ranged Combat** (DEX+INT): Missile and thrown weapons.
- **Unarmed Combat** (DEX+STR): Natural weapons and grappling.

Knowledge

- **Culture** (INT+10): History, politics, customs.
- **Language** (INT+50/INT): Speak/Read/Write.
- **Natural Lore** (INT+10): Animals, plants, survival.
- **Lore** (INT): Specific knowledge (Alchemy, History, etc.).

Practical

- **Athletics** (DEX+STR): Run, jump, climb, swim.
- **Craft** (INT+10): Make/repair items.
- **Deception** (DEX+INT): Stealth, disguise, sleight.
- **Driving** (DEX+INT): Vehicles.
- **Engineering** (INT+10): Construction, siege engines.
- **Healing** (INT+10): First aid, surgery.
- **Influence** (CHA+10): Persuasion, intimidation.
- **Mechanisms** (DEX+INT): Locks, traps.
- **Perception** (INT+POW): Spot hidden, sensory awareness.
- **Performance** (CHA+10): Arts, entertainment.

- **Sailing** (DEX+INT): Boats/ships.
- **Streetwise** (CHA+POW): Urban survival, fencing goods.
- **Trade** (INT+10): Bartering, appraising.

Equipment

Currency: 1 Gold Piece (GP) = 10 Silver Pieces (SP). 1 SP = 10 Copper Pieces (CP).

Weapons & Armour

Encumbrance (ENC): Armour ENC directly reduces Combat Order (already factored into formula). Carry up to STR+SIZ in total ENC without penalty (20 tiny items $\approx$ 1 ENC). **Overloaded** (ENC > STR+SIZ): -1P on all physical tests (weapons, DEX/STR skills), Movement halved, -1P on Fatigue tests. Max carry: $2 \times (\text{STR} + \text{SIZ})$.

Close Combat Weapons

Types: **1H** (one-hand), **2H** (two-hand), **Flex** (1H or 2H; +2 dmg in 2H, -2 STR req), **Set** (set vs charge), **Range** (throwable). Sizes: **Light**, **Medium**, **Heavy**, **Huge**. Parry blocks all dmg if same size+; half if 1 smaller; none if 2+ smaller. If STR or DEX below minimum: -1P to attack/parry.

Crossbow (H)	2H	2d6	150m	9/9	2	350 SP

Crossbow reload: Heavy = 1 full round; Light = move + reaction.

Armour

AP reduces incoming damage. ENC directly reduces Combat Order.

Armour	AP	ENC	Cost
Leather	2	3	500 SP
Ringmail	3	4	1000 SP
Scalemail	4	6	1500 SP
Chainmail	5	7	3000 SP
Platemail	6	9	9000 SP

Combat

Round: 5 seconds. **Sequence:**

1. **Determine Order:** Roll 1D10 + Combat Order. Highest acts first.
2. **Actions:** Each character gets 1 Combat Action, 1 Move Action, 1 Reaction.

Actions

- **Attack:** Attack nearest enemy.
- **Charge:** Move 2× and attack (+1d6 dmg). No reaction allowed.
- **All Out Attack:** 2 attacks at -1P. No reaction.
- **Great Attack:** 1 attack at +1B, Max damage bonus. No reaction.
- **Move:** Move up to Movement Rate (15m).
- **Sprint:** Move 2× Speed. Only Dodge reaction allowed.
- **Ready Weapon:** Draw/switch weapon (half move).

Reactions

- **Parry:** Use weapon skill. Reduces damage (depends on weapon size).
- **Dodge:** Use Dodge skill. Negates all damage.

Damage

Damage = Weapon Die + Damage Modifier – Armour Points

- **Major Wound:** Damage ≥ 1/2 HP in one hit. Must pass Resilience (-2P) or unconscious. Halved DEX.

- **Death:** $HP \leq 0$ means death (unless Hero Point used).

Special Effects

- **Critical Hit (Close):** Choose 2 of: max damage, ignore armour, free attack, trip, disarm, knock-back, knockout.
- **Critical Hit (Ranged):** Max damage + ignore armour (fixed).
- **Critical Parry:** Blocks all damage regardless of size.
- **Fumble:** Lose turn, drop weapon, or hurt self.

Disciplines

Disciplines provide supernatural or extraordinary abilities.

- **Power Points (PP):** Fuel disciplines. Regen 1/4 POW per 2 hours rest.
- **Zero PP:** Unconscious until 1 PP regained (or 1 hour).

Battle

Advanced combat techniques.

- **Learning:** Needs Combat Skill 51%+. Cost 2 IP to unlock.
- **Techniques:** Cost 1 IP per Magnitude. Max techniques = $INT/2$.
